Design tips

To make the design process simple fun & efficient we have a few tips that can help.

Our 3 step process:

1. Once you receive your initial pdf design by email any radical design changes should be made at this point. Finer wedding details can be finalised just before printing.
2. We will post out your printed invitation sample on our papers along with embellishments to suit the design including Ribbon, Wax Seals & Envelopes. Final changes should be made at this point. Once we email back your final proof and confirm the order we are not responsible for spelling, details & punctuation so please make sure this is correct to avoid any reprint costs.
3. Your invitations will be printed packed and posted by courier. Dublin and surrounding areas is generally next day delivery, greater Ireland can take 2 days, we also provide a collection point at Tempogue, Dublin.

To Note

We initially ask for a €30 deposit this covers your design and posting out your samples and is non refundable if you decide to proceed the €30 is deducted from your final payment, if not your order and invoice will be cancelled.

online invitations

We can apply any design from our invitations page. The invites are personalised to each guest.

To send simply paste on any app platform, we strongly advise not to use email as most do not get delivered due to spam filters and firewalls. We have designed our invitations to work via whats-app & text which has 100% delivery rate.

A template is provided for you to enter your guest names. When adding names its best to add your maybe list also so they are all there for you if needs be. The internet does not like fada's! so we ask if you can add these names to the end of your list. Once we recieve your completed guest-list you will be sent your guest-list page to begin sending your wedding evites.

If your adding a second list we will do up to 10 (in one go) additional names fee of charge. A small additional fee of €25 is required to add more.
